Frozen Fruits of *excellent quality*

OUR story

1

Frigo-Paun is a company established in 1993. Since the very beginning, the company has been engaged in repurchase, processing and export of berries. The company's dynamic development has started in 2000. At the same time we have been expanding our processing capacities, carrying out the modernization of equipment, adopting a quality and food safety policy. That way, we create and ensure the future of the company. Today, Frigo-Paun is a modern company equipped with advanced machines and with a trust of more than 1.000 farmers.

Frozen Fruits of *excellent quality*
LOCAL origin

We are situated in the western part of Serbia which is the center of berry production, especially for raspberries. This is an area world-renowned for raspberry production and we know to use these qualities and connect natural conditions, knowledge and technology to our customers' delight.

The fruits are being grown in cooperation with farmers, in an ecologically healthy environment at the altitude of 600 to 1400 meters.

We are perpetually educating our fruit growers about chemical protection and harvesting hygiene, so they can grow healthy fruit of the highest quality.

Frozen Fruits of *excellent quality*

Technology and Equipment

carefully selected products

Highest standards for food safety and quality are our top priority. Our goal is to deliver products that are of the highest quality and safety standards. Using advanced technology, respecting

the specific quality and delicacy of the fruit, we accomplish exceptional results in preserving the freshness and taste of the fruit, guaranteed to please even the most demanding of consumers.

The fruits are being selected by advanced laser technology - TOMRA digital laser sorter, 100 percent inspection in-line at full production volumes.

Modern equipment has been introduced for different packaging of frozen fruits, automatic lines for click-lock and bags packaging.

Our commitment to constantly acquire new knowledge and technology guarantees the highest quality standards

carefully selected products

Brand

As specialists in raspberries, blackberries, mixed berries and tropical fruits, we go to great lengths in customer-specific packaging. All of our products are available in packs branded with your name, or of our own brand **MOUNTAIN GARDEN**. That way, the packaging of our soft fruit is of your choice.

TOP QUALITY from the very START

How do we do it? We work with the most dedicated family of farmers to grow the best tasting fruit to guarantee true "taste of place".

The quality of our products lies in the nature in which they are grown: In the mild climate and unspolited environment.

Our fruits are known for their great taste and outstanding quality. We believe it's worth to produce class instead of mass - and consumer habits prove us right, as well as the numerous quality controls and certifications that are part of our production.

Through all stages of our production, from planting to harvest, storage and delivery, we keep to the strict requirements of food associations International Food Standards (IFS FOOD), KOSHER, ORGANIC, SMETA SEDEX.

FROM THE GARDEN TO THE TABLE

*family tradition
